Fire Service Levies are calculated at 7.6 cents per \$100 of the full policy sum insured, however may be calculated on a lower Indemnity Value sum when:

- a) The Insured Party provides a current Reinstatement Valuation from a Registered Valuer on all assets Insured; or
- b) The insured Party signs a declaration confirming the Indemnity Values shown represent a fair and reasonable Indemnity Value.

Indemnity Value is defined as current replacement value less depreciation on an age and condition basis in relation to the replacement value of the property.

You have not supplied a Registered Valuation on all assets insured. In order to ensure you are only paying the Fire Service Levy on the Indemnity Values shown above you are required to sign and return this declaration to us.

If we are unable to present this signed declaration to the Fire Services Commission on request, you are potentially liable for any Fire Services Levy shortfall, plus penalties applied under the Fire Services Act 1975 and Amendments 1992.

**IT IS IMPORTANT YOU COMPLETE, SIGN AND RETURN THIS FORM TO US IMMEDIATELY**
